HARNESSING DIGITAL STRENGTH FOR SOCIAL CAUSE

Osama Manzar

Founder & Director

Digital Empowerment Foundation

@osamamanzar

Civil society groups and non-governmental organisations are playing a vital role in the society and contributing towards nuanced nation building. Many smaller NGOs used to struggle due of lack of resources and funds. However, identifying resolution was hard in the face of limited access to information and snail pace communication.

Digital Revolution in the last decade has changed most of this. Being digital has ceased to be a luxury; in fact it has become a dire necessity. Not having access to Internet translates to information poverty and lack of resources--whereas, Digital encapsulates growth, wider network, resources, funds and dynamic outreach. Any organisation, not in a position to take advantage of the digital ecosystem will do so at its own peril. In fact, they are even investing in training and infrastructure to bring them up to speed with latest technology.

Advancements in Social Media, Instant Messaging platforms and AI driven dynamic websites—have heralded an era of digital entrepreneurship. Civil groups and NGOs are represented by tech savvy individuals who have blurred the lines between a social worker and an innovator/entrepreneur. They prove their credibility through research and well-analysed data to seek funds and use social media effectively to share stories and build support. Their website is a visual catalogue of outcomes and impacts as a result of engaging with communities over the years.

The biggest contribution of Digital Age is in democratisation of the systems, which were plagued by politics, corruption and partisanship earlier. The process of seeking resources and funds for social development has truly been liberated. Impact investment--which measures social impact alongside financial return, is impossible without digital integration. Crowdsourcing and crowdfunding leveraging technology has facilitated unprecedented ease in voluntarism and fundraising.

Internet has truly turned our world into a global village, where human pain and struggle finds expression and voice beyond territorial limitation.

The finalists of this year's eNGO Challenge Awards--honours some of the exemplary social organisations, which are protecting not just human rights, but also digital rights.

| E-LEARNING MAGIC

Partha Pratim Rudra

Agency Director

Children International

Those born before the 90s, witnessed the advent of digital technology and its extraordinary transformative power post 2000. To quote Sir Arthur C. Clarke, “Any sufficiently advanced technology is indistinguishable from magic.”

Of all technologies that the humans have invested in, the power of digital technology is sheer magic. It has changed lives by improving governance, business practices, healthcare especially in terms of accuracy and precision. It has brought the world to our doorstep. Digital learning platforms have caught the imagination of old and young alike, irrespective of social, economic or cultural background.

Many NGOs now use the digital learning platforms, for its interactive features, high quality standardized e-learning content, designed by experts. The content and pace of learning can be contextualized and customized, allowing each learner the opportunity to learn as per their time & need. CHILDREN, an NGO, working in Delhi has effectively integrated e-learning in the tutoring program, as a pilot, which has increased interest level and enhanced proficiency of the children in mathematics, languages and science.

They are currently working with over 6500 underprivileged children and youth in Bawana and Shahbad Dairy communities in North West District in Delhi to improve lives via participation in specially designed holistic, age appropriate programs in health, education, and empowerment. Their 8 Learning Resource Centers (LRCs) are addressing learning needs of 1100 children. A multi-grade tutoring system

is followed, wherein school children attending different grades i.e. 1 to 5 grades, and 6 to 8 grades are grouped as per their learning levels.

These children attend both formal schools and specially designed sessions at the LRCs 4 days a week.

The teachers, prepare worksheets as per the session plan and download relevant videos and content designed by experts based on CBSE curriculum and National Curriculum Framework. The students of grades 1-5 watch videos of the lessons on the LED screens and the older children of grades 6-8 work on independent computers and also complete their worksheets.

A student quotes, “E-learning sessions are most useful for us, these picture based sessions give us more concept clarity. I enjoy e-learning session because topics are taught in an interesting way.”

Children enjoy the learning experience and the teachers become both facilitator and guide. Based on the feedback from the LRC students and the concurrent and post assessments, the e-learning experiment is proving to be a good means for enhancing interest and conceptual clarity in science, mathematics and language, besides increasing retention and ability to share the learning with others, which in a way validates the universal experiences of the students from schools, where e-learning is a part of the teaching.

CHILDREN will also like to further innovate the program and replicate this concept in an informal education system and school program.

USE OF TECHNOLOGY AND DIGITAL TOOLS IN CIVIL SOCIETY ORGANISATIONS

Sandhya Kapoor

Dy. Director- National
Cooperative Union of India

The world is now a global village, thanks to the development of digital space in all the major economies. The digital eco-system is guided by the collective knowledge and application, to bring about advanced techniques and skills to develop efficient & effective processes. Technology helps evolve ideas & innovations and has been instrumental in improving efficiency all over the globe. The last decade witnessed, improved living conditions across all social classes. People below the poverty line now own smartphones and access internet. The use of popular social media platforms like Facebook, Whatsapp, etc. is rampant.

The IT sector depends a lot on research, development and distribution of innovative products and services. All IT based businesses revolve around the manufacturing of electronics, development of new software, computers or products and services relating to IT. They offer a wide range of products and services for both customers and other businesses. Consumer products like personal computers, mobile devices, wearable tech, home appliances and televisions are continually improving. Improving technology paves way for efficient businesses by using varied software to manage their logistics systems, database protection, and generally provide crucial information and services that allow companies to make strategic business decisions.

The IT sector is the most attractive investment landscape. Companies like Apple, Google, Amazon, Facebook, Netflix, IBM, and Microsoft, drive growth and their long-term potential makes them lucrative to traders. They tend to create effortless buzz by launching

original and innovative businesses. Digital tools are making use of the internet like mobile devices, social media, search engines, and other channels to reach consumers. Some market experts consider digital tools an endeavor that requires a new approach towards customers and understanding their behavior compared to traditionally set patterns. Digital tools are interactive and easier to use. Digital advertisements are now a preferred form of media, which includes search result ads, emailers and paid promotions which provides customer feedback and a two-way interaction between the company and customer.

NGOs can leverage and anchor this technological advancement in their favour.

All organisations should have online presence. This can help them get recognition and increase the flow of donations and help spread word about the mission and vision of the organisations.

It also helps reach larger and, in some cases, targeted audiences. NGOs primarily work towards socio-economic empowerment of communities. Propagating their initiatives on popular social media platforms can help in connecting them with the masses and help increase public participation. Last but not the least, showcasing the achievements and growth of beneficiaries through these platforms creates a level of transparency which helps an organisation gain public trust & help find volunteers and funders for the projects. Hence, adopting digital tools is a definite plus for all sectors especially the non-profits.

ELDERS FOR DIGITAL INCLUSION

Dr. Amita Joseph

Director, Business & Community Foundation (BCF)

It is high time that no one is left behind, in the current interconnected world, we have to help the elderly to learn and reap the benefits of the digital era. In India, there are 106 million elderly of which 98 % of them do not use mobile phones or mobile phones or internet. Even Government of India has not included them in the new Digital India program. We are starting to believe that discrimination on the basis of age is becoming a common practice in India and now also extends to the digital world.

In 2004, the Tsunami affected lakhs of people on the coast of Tamil Nadu. Helpage realises that the best way to rehabilitate the elderly is by organising elders into self-help groups around the coast of Cuddalore and Nagapattinam. These groups of elders have created institutions and federated them as district level federations and formed a state level federation called Elders for Elders. It has become a movement for financial inclusion. Their Chairman is Valliammal from the fishing community in Nagapattinam and the district Federation is chaired by Vishalakshi, with support from Digital Empowerment Foundation, HelpAge India and EFE have created Digital empowerment centers for the elderly. Today, older people from these communities are building centres across the state. Fishing communities are using these digital resources, so that the natural disaster warnings and future catastrophic events can be prevented or at least can be prepared for. Elders are leading the way to enable the SDG vision of leaving no one behind.

CJP FOR ASSAM

The hasty publication, of the Assam National Register of Citizens (NRC) Process has led to a Humanitarian crisis where nearly 40 lakh people have been excluded from Indian citizenship. Even though the deadline for filing claims was extended to the December 31, 2018, 2.5 million people are yet to make their claim for citizenship. CJP's 'Help us Help Assam' Initiative has already helped 10 lakh people (10,00,000) fill in their NRC forms.

The initiative ensured robust mapping of the issue along with ensuring solutions were made with stake holders as opposed to being driven from above. With the empowerment of locals and local teams not only is the initiative reaching out to the right people but is leading to education of those on the ground.

By using a toll free helpline, traditional media and grassroots meetings CJP has covered close to of the districts of Assam and is by far the most impactful organisation working on this issue. Moreover, CJP is one of the few organisations that is meticulously documenting the process on a district wise level and making the data available to the common public via its micro site.

IMPACT AND MAJOR ACHIEVEMENTS

- **Team of Volunteer Motivators (VM) in 19 districts**
- **Train affected communities into Rights and Entitlement Discourse**
- **Audio reports from Team at Ground Zero in Assam**
- **Toll Free Number that has handled 10,000+ calls**
- **Crowdsourced photo and video reports to keep track of progress**

MEERA VOTE MERA DESH

Association for Democratic Reforms (ADR) came into existence with the aim to combat corruption and criminality in the political system, and create an environment of accountability amongst the country's leadership. By producing unique and extensive reports on backgrounds of candidates, their Income Tax Returns, donations of more than Rs. 20,000 received by political parties as well as funds collected and expenditures made them during elections amongst others, ADR has contributed extensively towards increasing voter awareness, ensuring transparency, and strengthening democratic elements in the political arena.

The rationale behind this initiative is to arrest the increasing trend of candidates with tainted reputations being elected to the legislature and to ensure that voters exercise their franchise in an independent and informed manner. The campaign is characterized by extensive activities in almost all the states aimed at enhancing voters' awareness to reduce the effect of crime and money in elections.

Several renowned personalities were included in the initiative's voter awareness vox-pop videos, including Rajdeep Sardesai, Harbhajan Singh, Rituparna Sengupta, and Aamir Khan – with the aim to encourage voters into understanding their leaders before electing them.

IMPACT AND MAJOR ACHIEVEMENTS

- In Bihar, ADR reached 130 lakh individuals; Madhya Pradesh -10 lakh individuals; Jharkhand-10.3 lakh individuals; Uttar Pradesh - 1.35 lakh individuals, Odisha-2.5 lakh individuals
- ADR received the first Democracy Awards in the category of "Increasing Citizens' Participation in Electoral Process"
- ADR's Madhya Pradesh Election watch coordinator, Ms. Rolly Shivhare, received the Appreciation Certificate for MP Election Watch campaign by the Madhya Pradesh State Election Commission on the occasion of National Voters' Day

ADHIKAAR

Deepak Foundation's objective is to bridge the gap between Government schemes and the intended beneficiaries. 'Adhikaar card', an Integrated Village Development programme helps the underprivileged who remain oblivious to the development schemes categorically designed for them.

The project initiative aims to strengthen, the utilisation of Government schemes and services by facilitating the process of application to various schemes. The organisation implements initiatives, which cater to the population speaking Gujarati, Marathi, Hindi, Telugu as well as tribal languages - Khorba, Santali and Ho.

The initiative is implemented in 18 villages of 3 districts of 2 states of India. It reaches to 3100 households, covering the population of 23500.

'Adhikar card' tracks all eligible beneficiaries through a customised tracking system - a QR based card which serves as an analytical tool and digital locker for all certificates and also aids people in registering for various schemes.

The services have been set up at Panchayat office to ensure entitlements are accessed and utilised by beneficiaries.

IMPACT AND MAJOR ACHIEVEMENTS

- Nearly 70% of households in the intervention area have accessed services through the project initiative and have been linked with Government schemes access
- Deepak Foundation was presented with Millennium Alliance Round 4 Awards
- On February 18, 2018, Deepak Foundation received ET Now CSR Leadership Awards for Best Corporate Social Responsibility Practices and Women Empowerment

FINALIST

of all students undergoing training, during the entire student lifecycle, starting from base data of all students undergoing training, assessment and certification and finally placement. They are spread out geographically, making sure to reach the remotest of villages.

DIGITISATION

Yuva Parivartan is a collective effort of visionaries from all walks of life. They have adopted a holistic approach of enhancing the lives of less fortunate youth with vocational skills, guidance, counseling and financial assistance. Annually, they empower more than 1,00,000 youth of which over 60% are gainfully employed including those who take a bigger leap of becoming an entrepreneur. They have an internal Operations MIS which captures data

Seva Kendra**

CREATING LIVELIHOOD ADAPTATION UNDER DROUGHT

Lok Kalyan Seva Kendra is building resilience, for 851 small and marginal farmers, in the state of Jharkhand to combat the effects of drought, hunger and food insecurity. The drought resilience measures will ensure food security of the families after implementation of the project. Through their initiative they have trained people about new farming and irrigation techniques through which they can do farming using less water.

They have successfully approached 3000 farmers and trained them through SRI technique and have formed CBO's leading women to take leadership roles providing training on natural resource management & block level convergence. Around 40 women farmers have adopted mushroom, finger millet & broccoli farming and have utilized their barren fields due to lack of rain. They also work with adolescents and children in nutrition.

HAR HATH KO KAAM

Himkaara Unnayan Samiti is a society governed by the department of Prisons & Correctional Services, Himachal Pradesh. Prisons are generally perceived as centres for incarceration where human dignity is compromised.

However, the modern day emphasis is on reformation and rehabilitation. They have started a number of welfare activities for the inmates in the jails of Himachal

FINALIST

SASAKAWA INDIA LEPROSY FOUNDATION

Sasakawa- India Leprosy Foundation works to end the stigma and discrimination towards persons affected with leprosy and their families by spreading awareness. They provide factual information on leprosy and thereby help in changing mind-sets by empowering leprosy affected people through education, training and financial support to become productive members of the society.

Their livelihood program aims at initiating, strengthening and scaling up livelihood activities through financial, technical & capacity building support. It ensures access to education for all children belonging to leprosy-affected households to help them build a more secure future. The advocacy & awareness program engages with the policy makers for the rights and inclusion of leprosy affected people through an informal forum of like-minded and pro-active group of parliamentarians, cutting across party lines, who are actively committed to work for a leprosy free India.

DIGITAL ACCESSIBLE INFORMATION SYSTEM

Article 17 of the Constitution of Bangladesh talks about free, compulsory and inclusive education for its citizens. As a result, lots of visually impaired students are now studying in schools, colleges and universities and this number is increasing every year, but they are facing a severe lack of accessible study materials.

YPSA, with the support of A2I (Access to Information Program), Government of Bangladesh, has produced DAISY- Digital Multimedia Books, accessible E-books, Digital Braille Books and math books for the students of class I to X. In Bangladesh, total number of users for DAISY Multimedia Books is around 150,000.

IMPACT AND MAJOR ACHIEVEMENTS

- Distributed DAISY (Digital Accessible Information System) books to 12,000 individual members and 20 organisations
- UNESCO Prize for Digital Empowerment of Persons with Disabilities (2018-2019)
- YPSA Awarded for innovative practice on Inclusive Finance at the zero project conference 2017 in Austria

SMART CLASSES IN KASTURBA GANDHI BALIKA VIDYALAYALA

Smart Classes in Kasturba Gandhi Balika Vidyalaya is an aspiration to transform the education landscape in the KGBV in rural and remote setup of Deoghar district of Jharkhand, using e-vidyaloka portal by NEEDS.

The initiative addresses, the two chronic challenges which are declining quality of education & increased dropouts. It is focused on children in the age group of 10-14 years old, delivering live interactive classes from all over

the world in the local medium using a powerful partner eco-system.

Smart classes in KGBV initiative is designed to:

- » Complete shortage of teachers.
- » Conduct interactive sessions using Skype technology.
- » Mobilising motivated highly qualified teachers from across the globe.
- » Creating interesting and joyful learning setup using IT skills.
- » Provides opportunities to professionals to give back to the society.

IMPACT AND MAJOR ACHIEVEMENTS

- Children and adolescent reached to 42,300
- Number of families benefited: 1,32,400
- Stakeholders reached for collaborations: 6,400
- Winner of South Asia mBillionth Awards, Innovations in Telecom & Mobile Content & Application for Masses in 2011
- Vodafone Mobile for Good Awards and Grant Fund Awards as a Finalist for 2011

SPECIAL MENTION

 **Organisation:** Elders for Elders Foundation

 **Country:** India

 **Language:** English

 **E-mail:** elango.efef@gmail.com

 **URL:** eldersforelder.org

DIGITAL ECOSYSTEMS FOR SENIOR CITIZEN

The growing role of information and communication technologies (ICT) in our daily lives has led to concerns about increasing inequality between those who can and those who cannot take advantage of new technologies. The divide has been observed not only between younger and older people but also within sub-groups of older adults.

This is not only due to lack of access (first-level digital divide) but also due to lack of use (second-level digital divide).

Advanced age, low education, low income, and disability have been shown to predict low internet use among seniors.

Elders for Elders foundation has created 'Digital Ecosystems' across 4 locations of Nagapattinam & Virudhunagar districts in Tamil Nadu to digitally empower the older adults to access online services for social engagement by providing digital tools like Skype, online banking tools, connectivity, training and capacity building.

Some of the key activities of Elders of Elders are:

- » Institution building for Elderly - Elders Self Help Groups, Village Organisations and District Level Federation
- » Livelihood Promotion for Elderly- Training and capacity building, Credit linkage
- » Community-Based Health Care - Village Health centres and Palliative care

IMPACT AND MAJOR ACHIEVEMENTS

- Two Community Information and Resource Centres were established (CIRC)
- 344 beneficiaries trained in usage of digital tools
- Training of 34 trainers

ADOPT A SCHOOL PROGRAM BY ALIG

ALIG Educational and Welfare Society an initiative aims to help improve the educational quality for the underprivileged. It intends to facilitate education by entering into partnerships which would be sustainable and transformational, thus contributing to India's path of progress and development.

The Project "Adopt a School Program"; an All-Round Development Program is a step towards a positive school environment which supports overall development of a child. The project aims to reach out Government school students belonging to underprivileged communities of

targeted work areas, by implementing need based Learning Enhancement activities.

The Project revolves around English language, environmental awareness and personality development of children through extra-curricular activities.

The prime objective of this project is all-over quality improvement and personality development of students. Keeping in mind indicators like low number of teachers, lack of motivation, dull and lack of interactive classroom sessions, ALIG came up with Adopt a School Program. So far they have adopted 28 Government Schools.

IMPACT AND MAJOR ACHIEVEMENTS

- ALIG has been able to reach out to more than 8,632 students through its education related initiatives
- ALIG has directly benefitted more than 10,256 people through its health initiatives
- More than 4,500 students are digitally literate

TABLAB

Deepalaya is a certified non-government organisation that believes in enabling self reliance and is committed to working on issues affecting the urban and rural poor, with a special focus on women and children. The NGO was started on July 16th 1979 by seven founding members, and for more than four decades, has been contributing to the crusade against illiteracy.

TABLAB is an innovative, student centric digital literacy project aligned to Digital India & Digital Literacy Mission by the Government of India. It is especially designed for rural government schools for high impact delivering digital literacy.

Under TABLAB, they deliver custom designed tablets with content in five categories: Multimedia, Play apps, Activity videos, Digital books and Practice assignments.

IMPACT AND MAJOR ACHIEVEMENTS

- The project has been implemented in 28 schools impacting 5,922 children studying in government schools/government aided schools and NGO-run centres
- They have trained 182 teachers on the usage of TABLABS
- They have won the 2018 Delhi NGO's Leadership Awards

PROJECT UTKARSH

Moinee Foundation, since 2012, has been working on “Right to Quality Education” at grassroots, primarily focusing on rural and deep-rural/tribal areas. We have two flagship initiatives Project Utkarsh. First is smart class initiative for non-functional ICT labs in Government Schools.

Second is Community eLibraries - An Offline Smart Knowledge Server based on eLibraries for last mile delivery of eLearning to the digitally disconnected communities and schools/hostels in rural/tribal areas. Project Utkarsh has helped revive over 1500 ICT labs in Govt schools in last 5 years and directly touched over 5,00,000 students of Government schools. Majority of the beneficiaries are from rural and deep rural areas and a good majority is of first generation learners with 35% of them being girl students.

IMPACT AND MAJOR ACHIEVEMENTS

- Project Utkarsh is currently present in 13 districts across 4 states
- Two of Moinee Foundation's key initiatives were nominated for PM innovation Awards (Project Utkarsh - in 2018, eGyankendra, An offline community eLibrary - in 2017)
- Implemented 135 offline eLibraries (based on our Awards winning initiative eGyankendra) across India covering 7 states

HAMARA INTERNET

Digital Rights Foundation is working to create a pool of resources to help women netizens remain safe and secure online. They launched, Hamara Internet (Our Internet) campaign to encourage use of Internet among women in Pakistan by teaching them create things and protect their online rights.

Cyber harassment and online violence is at an all time high in Pakistan and the initiative especially focuses on why it's important to not only be aware of one's right to be free on the internet but also what must be done in order to make it a safe space.

The Hamara Internet initiative focuses on inclusivity and safety over the internet for every citizen regardless of their age, race, ethnicity or gender.

A cyber harassment helpline, which was started in 2018, focuses on providing legal aid, psychological help and digital security assistance.

In the year 2018, DRF reached out to 14,900 direct beneficiaries through workshops, seminars, awareness sessions, close group discussions, conferences and trainings.

IMPACT AND MAJOR ACHIEVEMENTS

- DRF received the Dutch Rights Tulip Awards on advocating for safer use of the internet
- Nighat Dad was named as TIME Magazine's list of next generation leaders because of their extensive work with women in reclaiming online spaces
- Their work has been presented as Top 10 Entrepreneurs at the United Nations General Assembly (UNGA) in 2018
- DRF received the I Am the Change Awards (IATC) 2017 in the category of Social Development

NAYI DISHA RESOURCE CENTRE

Nayi Disha Resource Centre is an NGO supporting the families of people with intellectual or developmental disability (IDD) such as autism, down syndrome, and cerebral palsy by leveraging technology. They enable individuals with special needs by providing their families, with necessary information and by creating a supportive ecosystem for the caregivers through their unique online platform.

The three key pillars of their services are Knowledge Hub, Online Caregiver Community & National Directory of Services.

Although, people with Intellectual and Development Disabilities (PwIDD) constitute a significant population of India (31 million as per 2004 WHO report), overburdened education and health systems in India fail to cater to the needs of PwIDDs and their families.

They aim to overcome this information gap by educating and empowering families of PwIDD and make them an active participant in their child's development. They have developed a web-enabled and mobile-accessible service platform (Nayi Disha) that brings various stakeholders together and provides quality information to families in an accessible manner.

IMPACT AND MAJOR ACHIEVEMENTS

- Footfall of 3,00,000 with 80,000 unique visitors so far
- More than 225+ informative articles in the form of audios, videos, infographics, slideshows and booklets in English, Hindi and Telugu

GPOWER

Child in Need Institute (CINI) is a 45 year old NGO working towards sustainable development in health, nutrition, education and protection of children, adolescents and women among underprivileged communities. They have received the National Awards for Child Welfare twice – 1985 and 2004. They work both as an implementing agency as well as technical assistance partner to the Government.

CINI has been working with adolescent girls in West Bengal since early 2000, supporting the government in delivering quality services to adolescents.

With Information & Communication Technology boom in India, CINI took the next step to initiate an innovative project called Gpower.

It is a digital solution which focuses on enabling underprivileged girls make a healthy transition from childhood to a productive adulthood by addressing key issues such as poor growth, school drop-out, early marriage and trafficking.

Gpower is an IT Enabled system (ITEs) for tracking the vulnerabilities of adolescent girls, mitigation planning, measuring timely actions, monitoring and assessing impact especially on the issues of early marriage and trafficking.

IMPACT AND MAJOR ACHIEVEMENTS

- 144 child-marriage cases addressed successfully
- 424 adolescent girls empowered to access Government schemes
- Awarded with HCL Grant by HCL Foundation under Health Category in 2017
- Certified as 'Best Performing Child Care Hub' by TISS, Mumbai

GAANA REWRITE

Within hours of a song's release, millions of fans are found singing the catchy numbers. But often, the lyrics of these popular chartbusters make rampant use of derogatory words and themes against women. Akshara Centre, an NGO dedicated to the empowerment and safety of women, ran a national competition called #GaanaRewrite in collaboration with – One Billion Rising and Eksaath, and invited people from all over the country to submit entries with re-written lyrics of sexist songs that often become tools for sexual harassment in streets and public places. This initiative is unique because it not only allows people in understanding the existing sexism but also encourages them to reject it as well, by rewriting those songs.

As a part of the campaign, they reached out to youth in Mumbai and conducted three hour workshops to discuss the notions of sexism.

The video of six rewritten songs as culmination of the campaign has become another way to reach out to larger audiences and garner support for the idea that Bollywood needs to change.

JAL PRAHARIS: CITIZEN BASED FLOOD FORECASTING SYSTEM

SEEDS provide flood alerts to rural populations via their citizen first responder network. They also collect field reports regarding the state of flooding and make them publicly available.

Under Jal Praharis, SEEDS is building the capacity of the youth residing in flood affected communities, so that they can disseminate alerts well in advance and lead the community towards safety. The project is currently building their networks of community-based volunteers in Patna and will soon run test alerts to verify that the citizen responder network is functioning as expected on field.

In 25 years of service to the people, their initiatives have continued to work around integrated risk management, working to build harmony between people and their environment.

IMPACT AND MAJOR ACHIEVEMENTS

- A three-year programme on school safety in East Delhi, re-defining corporate partnerships for risk reduction and tailoring solutions to each of the 50 schools with which they are working.
- A vibrant citizens' forum namely 'Purvi Dilli Apda Prehari' meaning East Delhi forum for DRR.

KASA KIOSK

Saahas is a non-profit organisation working in the field of waste management. They believe that when waste is managed at source, it becomes a resource. Since 2001, they have helped, build communities across rural and urban India that manage their waste at source by reducing, reusing and recycling and achieving 90% resource recovery.

They came up with Bangalore's first manned and monitored bin-based segregated waste collection station at Wind Tunnel road, Murugeshpalya in December 2018.

As of 30th June 2019, nearly 29 tonnes of waste has been handled through the Kasa Kiosk, from

its inception on 18th December 2018. Nearly 8395 people (residents or small businesses managers) have handed over waste to the Kasa Kiosk, by the end of June 2019. The work done through Kasa Kiosk, has been recognised both in print & social media. Also, acknowledgment & appreciation for the same is done by BBMP authorities. Multiple, door to door awareness campaigns has brought about a change in people's attitude on waste management.

IMPACT AND MAJOR ACHIEVEMENTS

- Indian Circular Economy Awards 2019 - Not for Profit Category at the FICCI Circular Economy Symposium 2019.
- Nearly 29 tonnes of waste has been handled through the Kasa Kiosk, from its inception on 18th December 2018.

ALLIANCE OF HEALTH ORGANIZATIONS

Alliance of Health Organizations (AHO) is an independent alliance of national and international health NGOs. Established in 2012 as a non-profit with the aim to promote justice and health rights for all Afghan citizens affected by conflict and war. It supports, coordinates and partners with 25 civil society members (national and international based in Afghanistan) and enables them to mobilize community and work in partnership with all stakeholders including Afghan government to ensure health as basic rights of individuals.

Currently, there are wide variations in coverage of essential health services both among and within countries. AHO offers an unparalleled set of skills in transforming how the Ministry of Public Health of Afghan Government designs, delivers, and evaluates health financing system through domestic resource mobilization. It also strengthens capacities of civil societies in developing advocacy strategy and strategic behaviour change communication at the national, state, and district levels.

IMPACT AND MAJOR ACHIEVEMENTS

- **Survive:** Strengthened capacity of CS partners to design, deliver & evaluate both BCC and advocacy improved at all levels
- **Thrive:** Achieve universal health coverage and access to quality essential services
- **Transform:** Vulnerable groups empowered to seek health services

VIRTUAL DROP-IN CENTER

Deepshikha Samiti has been working at the grassroots level since 1994 in Delhi and other states for socio-economic development of urban and rural areas. They have worked with the poor and marginalized sections in the field of justice, human rights, health, HIV AIDS employment and participation in governance. Development programs are based on the needs of people with an effort to mobilize participation for community development.

The HIV epidemic in India is driven by sexual transmission, which accounted for 86% of new infection. To address invisible and hard to reach high-risk populations (Female Sex Worker/ Male Having Sex with Male/Transgender) an innovative web-based communication strategy called safelovers is used to identify and link the virtual network with the service provisions.

Some important features of Virtual Mobile app:

- » Counselling facility available by chat or through phone calls for frequently asked questions (FAQ) on risk, vulnerability, safe practices, and test and treatment facilities.
- » IEC/BCC materials available in digital formats: audio-visual, text, photographs and posters.
- » HIV and Syphilis screening at the doorstep of clients through an appointment with nearby Outreach Worker on request of the client.

During the last two years, our NGO has been registered cumulative 2,186, distributed 6,92,780 condoms among High-Risk Population and has trained around 1100 girls/women for the vocational course for their better livelihood at North East Delhi.

NATIONAL HEALTH AWARENESS PROGRAM

Disease management Association of India is an organisation with special consultative status with UN ECOSOC and works towards mental illnesses other than tangible physical issues. It runs various health campaigns and workshops on stress management, obesity, drug addiction, cancer, and anti-bullying etc.

After a school survey the organisation found out that many teenagers are not aware about non-communicable diseases and how does it affect their lives. Also, behavioral changes are also not discussed either at their homes or schools. The workshop makes the children aware of the changes in the body during adolescent and accept them. The activities within the workshops are planned in such a manner that the children/ teenagers come out and speak about their problems. This structured way of making them aware of the changes in their own lifestyle using role plays, self-assessment, personal counselling adds on to their comfort ability and helps them get vocal about their issues.

HOLISTIC HEALTH TO UNDER-SERVED RURAL & TRIBAL POPULATION

Dr M L Dhawale Memorial Trust extends arms to anyone in need, from destitute women, deprived peasants, penniless students, poor patients. It works towards providing medical support, antenatal care and institutional delivery to ensure healthy lifestyle and livelihood opportunities.

The initiative to serve the under-deserved communities, they started with mother-child care and expanded to adolescent girls counselling, health awareness and have worked across many Talukas in the last 15 years. It also concentrates on addressing malnutrition which is a state of deprivation and thereby talking about how malnutrition affects child growth. They also address and convince women to deliver babies at hospital by getting women aware about its importance at large.

They train the semi-literate married women and educate them in primary Homeopathic care. They are also known as Community Health Volunteers. The initiative of holistic health helped them realize that a hungry person cannot just be helped by medicines and thus have encouraged the people to help by providing livelihood opportunities. This is a part of community development program and includes sustainable farming, school education, self-help groups and they ensure that these values and systems become a habit and are embedded in each individual.

THE ORAL HISTORY PROJECT

The Citizens Archive of Pakistan (CAP) is a non-profit organisation dedicated to cultural and historic preservation, operating in Sindh and Punjab. They seek to educate the community, foster an awareness of their nation's history, and instil pride in Pakistani citizens about their heritage. CAP has three main goals: to preserve and provide access to their archive, to build and support educational programs, and to develop educational products based on the testimonies collected.

The Oral History Project (OHP) lies at the heart of CAP. The project records recollections of the early days of Pakistan to provide an alternative perspective to official narratives found in historical literature. The stories emerging from the project, the secrets captured in old photographs, and the personal experiences of our nation's rich and varied people provide inspiration for our exhibitions and events. The project concentrates on people talking about significant events in their lives during early days of Pakistan, providing an alternative perspective to historical literature. The project also aims to archive and preserve various records such as letters, newspapers, refugee cards, official correspondence, and passports.

IMPACT AND MAJOR ACHIEVEMENTS

- **Shanaakt Festival:** CAP staged a 4-day festival in 2007 to celebrate the 60th anniversary of Pakistan's independence
- **School and College Educational Outreach Tours:** In 2009 The School Outreach Tours (SOT), the first of their kind in Pakistan, introduced CAP's 'Imagination Stations' to schools across Karachi
- **Alchemy Festival (London):** CAP was commissioned by British Council to put together a multimedia exhibition at Alchemy 2014

MEET OUR JURORS

Meenakshi Gupta

Co-Founder- Goonj

Meenakshi Gupta, co-founder of GOONJ, started the Awards winning non-profit with her husband Anshu Gupta in 1999. An IIMC alumnus, she started working full-time in Goonj in 2005, ending her 15 years of corporate career and eight-year stint as News Publicity Head at BBC South Asia. With Goonj's widespread work, Meenakshi focused on women issues, especially regarding their needs for menstrual hygiene, in far flung villages of India. The backbone of Goonj, Meenakshi works with her team to build a stronger pan-India civic engagement through communication with the masses. She terms the time spent with community members in the interior India as her biggest learning, personally and professionally. A trained Dance Movement Facilitator, she finds it most enriching and inspiring to connect with the youth and take initiatives for the country.

Shirin Kujur

Assistant General
Manager- CSR and
Sustainability ReNew
Power Limited

Shirin has been active in the area of Social Development for last 16 years and has worked extensively with national and international NGOs and corporates, where she has been responsible for identification, planning, executing and monitoring social developmental projects. At ReNew Power Limited, India's largest renewable energy Independent Power Producer, Shirin is involved in one of its key programs which bridges energy gaps in schools of rural India using renewable energy. This in turn leads to improvement in their learning environment. Shirin has also worked with an FMCG company where she was involved in CSR projects, engaging with NGO's and Civil Societies for fostering partnerships and support the team in developing long term road map for the company.

Dr. Amita Joseph

Director, Business & Community Foundation (BCF)

Dr. Amita V Joseph has a long list of academic achievements. She graduated from Madras University, did her PGDM (Management), achieved a law degree (Delhi University), PGDM (Human Rights) from the Law Institute and a PhD from Australia's Deakin University. Dr Amita also has experience in the corporate, development and legal sectors for over three decades. She has also been a lecturer with a number of universities and institutions and is associated with many non-profit organisations. Dr Amita is also the recipient of the Deakin University Silver Jubilee Awards for significant contribution by an alumni and the NS Books Awards.

Suzanne Singh

Chairperson- Pratham Books

Chairperson of Pratham Books since 2014, Suzanne moved to the development sector after 14 years of marketing and communications experience in the corporate sector. Deeply interested in issues of equity and access to quality education, she has been involved with Pratham Books since its inception in 2004 and became the Managing Trustee of the organisation in 2010. Using technology and innovation, Suzanne has been enabling the organisation to further its mission of 'a book in every child's hand'. She also serves as a Trustee of Akshara Foundation.

Dr. Monica Banerjee

Director Programs- National Cooperative Union of India

Dr. Monica Banerjee has been working for the foundation since 20 years. Her work includes strengthening civil society and shaping philanthropy programs. Her role involves engaging with different stakeholders in philanthropy, including government, businesses and academia. Dr. Monica has a PhD in Gender and Governance from IIT Delhi and was a post PhD visiting fellow at London School of Economics in 2006. She also has several research papers to her credit.

Amitabh Singhal

Director- Telxess
Consulting Services

As a Co-Founder and then President of the Internet service provider Association of India, Amitabh became one of the pioneers of Internet Industry and played a key role in freeing Internet from government monopoly. He drafted and influenced the Internet/Telecom Licensing, Policy and Regulatory measures, which became the foundation for wider proliferation of Internet in India. In 2003, he became the Founder, Board Director and CEO of National Internet Exchange of India, Internet Exchanges, .IN Domain Registry, Root Servers and more. In 2010, he became a Board Director & Secretary of US based Public Interest Registry, the Registry for. ORG, .NGO top level domain names. Amitabh runs a Consulting practice in Internet and Telecom Policy and regulatory sphere and has a Startup investment in Solar micro-grids.

Puja Marwaha

Chief Executive-Child
Rights & You

Puja's passion for children's rights inspired her to become a part of the social sector. She joined CRY in 1994 to set up its HR function. In 2002 she moved on to general management roles and today she is the CEO at India's leading child rights organisation. Puja has helped build a framework for CRY that best captures the essence of justice and equity. Her work is focused on creation of an organisational character that attempts to foster a passion for children, a high degree of individual accountability to children and a belief in everyone's potential to bring change for children. She also serves on the board for VANI – Voluntary Action Network India – in an endeavour to strengthen public mobilisation for social causes.

Rajesh Verma

Former Secretary-
Information Technology

Rajesh Verma retired after serving the Government of Sikkim for 36 years. He was initially involved in expanding the police telecommunication network in Sikkim appropriately using solar and wind energy. Subsequently he spearheaded the implementation of various Mission Mode Projects under the National E-Governance Plan and brought about extensive automation in the State Government. He formulated the IT Mission, Right of Way and E-Waste Policies. Groundbreaking proof of concepts like the Awards winning Cyber village and setting up of a CAD centre at the Directorate of Handicrafts were implemented by him.

Rajesh is also passionate about trekking and has written the best-selling guide book on Sikkim. He has also authored books and his articles on travel and social issues have appeared in many publications. He is presently the Working President of National Association for the Blind, Sikkim Branch. His current area of interest is to use ICT tools for ensuring employability of the disabled.

Partha Pratim Rudra

Agency Director- Children
International

Children International is an organisation which invests in the lives of children and youth and empowers them to create a lasting change in their own lives and communities. In his career 15 span exceeding three decades in the non-profit sector, Partha has worked across India on issues relating to child and youth development, gender and social equity both, at the grassroots and at senior level leadership positions. Earlier he served in CAPART, RGVN, and National Foundation for India, Reach India and Smile Foundation. He also brings along a wealth of experience working in partnership with national and international NGOs, the corporate sector and the government. Partha also has substantial expertise in education, health, livelihoods and governance. He is a lifelong Aspire India Fellow and had also been a Senior Fellow at Center on Philanthropy and Civil Society, and International Health Program of Packard Foundation.

Vaibhav Chauhan

Founder Member-
Sahapedia

Vaibhav has trained in managing and conserving heritage. A founder member of Sahapedia.org, he is its secretary and is responsible for resource development and operations. He has worked with the National Mission for Manuscripts and Sangeet Natak Akademi in past. His passion is to leverage technology to reach travellers, students and enthusiasts. Vaibhav has launched multiple Awards winning programs like India Heritage Walks, Museums of India and India Heritage Walks Festival.

Dr. Otojit Kshetrimayum

Anjali Godyal

Chief Development Officer –
S M Seghal Foundation

Godyal has over 13 years of experience in leading, managing and implementing grassroots projects on water management, agricultural development and good rural governance. She is responsible for developing strategies for growth and sustainability of the organisation, while ensuring that the action plan is designed and implemented in line with its values, mission and vision. She has also co-authored many papers on rural development.

Sandhya Kapoor

Dy. Director- National
Cooperative Union of India

Sandhya Kapoor worked as a computer programmer specialising in COBOL, C, C++, RDBMS for about 8 years and thereafter diversified into faculty of management at National Cooperative Union of India (NCUI), an autonomous organisation under the Ministry of Agriculture & Farmers' Welfare. NCUI, the apex organisation of the Indian cooperative movement regularly conducts a training programme for cooperative leaders, employees and members on various aspects of running and managing a cooperative society. We also partner with various government and non-governmental organisations to train people to form cooperative societies thereby empowering people and enabling them to bring socio-economic changes into their own lives. I specialize in gender-related leadership issues existing in cooperative societies, communication skills, conflict management & team building. At present my job involves negotiating with various organisations, designing training programmes as per clients' needs apart from taking lectures and managing social media accounts like Twitter, Instagram, YouTube channel and Facebook of NCUI.

Arjun Phillips

Program Manager-
Voluntary Action
Network India (VANI)

Arjun is associated with Voluntary Action Network India (VANI) since 2014 and looks at the external environment of civil society that comes to include policy analysis of regulatory regime, capacity building of CSOs, amplifying narrative of the sector, south-south cooperation and global development issues related to increasing the space for civil society participation in multilateral forums. In VANI, he has researched on subjects such as Asian Infrastructure Investment Bank (AIIB), the statistical impact of the voluntary sector, unpacking income tax for the voluntary organisations and identifying partnership models for promoting SDGs. He has also co-authored research articles for the premier G20 Digest on civil society interaction in policy inputting and civil society's role in developing quality and sustainable infrastructure among others. As of now, he is undertaking a nation-wide campaign to strengthen and implement Goal 17 of SDGs by organizing Multi-Stakeholder Development Conclaves in furtherance of realizing triangular cooperation between Government, CSOs and Private Sector.

EVENT PARTNERS

Digital Empowerment Foundation aims to connect unreached and underserved communities of India in an effort to bring them out of the digital darkness and empower them with information access through last mile connectivity, digital literacy and digital interventions. With the motto to 'Inform, Communicate and Empower,' DEF aims to find sustainable ICT solutions to overcome information poverty in remote and rural locations of India. In an effort to achieve this aim, DEF has adopted a multi-stakeholder approach and a six-fold path to enable communities, governments, schools, civil society organisations and micro-enterprises to avail the benefits of the Information Age. Under this six-fold programme approach, DEF initiates projects in the areas of Access & Infrastructure; Education & Empowerment; Governance & Citizen Services; Markets & Social Enterprises; Knowledge Hub & Network; Research & Advocacy.

WhatsApp started as an alternative to SMS. Our product now supports sending and receiving a variety of media: text, photos, videos, documents, and location, as well as voice calls. Our messages and calls are secured with end-to-end encryption, meaning that no third party including WhatsApp can read or listen to them. Behind every product decision is our desire to let people communicate anywhere in the world without barriers. More than 1 billion people in over 180 countries use WhatsApp1 to stay in touch with friends and family, anytime and anywhere. WhatsApp is free2 and offers simple, secure, reliable messaging and calling, available on phones all over the world.

The World Summit Award (WSA) is a global activity to select and promote the world's best e-Content and most innovative ICT applications. It offers a worldwide platform for all who value the creative use of ICTs and who are committed to making today's information society more inclusive. WSA was initiated by Austria in 2003 in the framework of the United Nations' World Summit on the Information Society (WSIS) and is organised by a global partner network, coordinated by the International Center for New Media. WSA partners come from governments, the private sector and civil society in over 178 UN member states.
